

Weather Workshop I - National Weather Service

We will review basic weather patterns of the Pacific Northwest maritime area (west of Cascades) that affect aviation interests. Weather phenomena include unstable shower patterns, marine stratus, fog, high winds, thunderstorms and the Puget Sound Convergence Zone. Emphasis will be on the effect of these phenomena on the aviation community. In addition, we will provide some satellite interpretation tools that pilots can use to better anticipate such events.

Directions: Western Washington Fairgrounds are located in Puyallup, just off Hwy 512, at the corner of S. Meridian and 9th Avenue SW. Enter fairgrounds through the Blue Gate. FREE Parking in BLUE Lot. If flying into PLU see additional information below for airport shuttle details.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area
Sign up for the FAA's safety services at www.FAASafety.gov!
